EDUCATION

Bachelors of Technology in Computer Science Engineering (Artificial Intelligence and Machine learning) <i>Madanapalle Institute of Technology & Science</i> Score: 6.46 CGPA	2024 – 2027 Kadiri Road, Andhra Pradesh
Diploma (CSE) <i>Loyola Polytechnic</i> Score: 74.54 %	2021 – 2024 pulivendula, Kadapa, Andhra Pradesh
Matriculation(SCC) <i>Geethanjali High School</i> Score: 100%	2020 – 2021 Jammalamadugu, Kadapa, Andhra Pradesh

TECHNICAL COMPETENCIES

OS Windows	Languages Python, HTML, SQL
Databases MySQL	Other Interests Web development, Cloud Computing, Gen-AI, Agentic-AI

CERTIFICATIONS

Data Analytics Certification From Cisco	Cyber security essential Certification From Cisco
Completed internship on web app development From Eduskills Foundation	Completed internship on Machine learning From Edunet Foundation

TRAINING & PROJECTS

Timetable management system 🔗 <i>MySQL Project</i>	06/2026 – 06/2026
The Faculty Timetable Management System is a database-based project designed to manage faculty schedules, subjects, departments, classrooms, and time slots efficiently. This system helps colleges or institutions organize class timings without conflicts.	

Green House Gas Emission Prediction

07/2025 –
08/2025

Machine Learning Project

Developed a **Greenhouse Gas (GHG) Emission Prediction System** using Python and machine learning to estimate greenhouse gas emissions based on historical environmental and industrial data. The application analyzes trends and patterns in emissions, enabling users to better understand emission levels and support data-driven environmental decision-making. The project includes data preprocessing, model training, prediction, and result visualization to provide accurate and meaningful emission forecasts.

Placement Management System

06/2026 –
06/2026

MySQL Project

Developed a **Placement Management System** using MySQL to streamline the management of campus recruitment activities. The system stores and manages student, company, job, and application details while maintaining relationships between entities using primary and foreign keys. It enables efficient tracking of student eligibility, job applications, interview schedules, and placement records through well-structured database design and SQL queries, ensuring accurate and organized placement management.

SKILLS

Interpersonal Skills

Management & Coordination, Writing Skills

HOBBIES

Listening music | Writing | Reading

EXTRA CURRICULAR & CO-CURRICULAR ACHIEVEMENTS

5th place in Inked imagination

2025 National Level Creative Writing Competition
